Ahora con la librería WordCloud generamos una nube de palabras con el texto del libro.

```
# Crear una instancia de WordCloud y generar la nube de palabras
wordcloud = WordCloud(width=800, height=400).generate(book_text)

# Mostrar la nube de palabras
plt.figure(figsize=(10, 5))
plt.imshow(wordcloud, interpolation='bilinear')
plt.axis("off")
plt.show()
